

APES: Global Distribution of Disease

https://www.koshland-science-museum.org/sites/all/exhibits/exhib_infectious/global_distribution.jsp

Go to the above website and learn about the global distribution of disease. You may have to do some research to complete the following table.

Disease	Highest Population Found Where?	Vector (How transmitted?) How are these connected to environmental issues?	Health Symptoms?	What can be done to combat issue?
HIV				
TB				
Malaria				
Cholera
