

Environmental Science - Listmania

This activity can be used as an opener (warm-up or ice breaker) for environmental issues. In this activity, students work in groups to make lists with a topic prompt. Students then share their list with the class by writing it on a poster board.

Environmental Issues Facing the World Today	Species of Animals that Should be Saved
College Majors that Relate to Environmental Science	Places to Visit to Enjoy the Environment
Ways that Individuals Can Help the Environment	Movies The Have an Environmental Theme or Message
Laws that Protect the Environment	Products that Have an Environmental Message or Application
